Career Objective

A highly motivated and curious individual passionate about exploring the digital world, particularly in the fields of data analysis, data engineering, and data science. Eager to leverage my technical skills in programming and database management to contribute to innovative projects and further develop my expertise.

Education

Bachelor of Technology in Computer Science (Data Science)

Vaagdevi College of Engineering | 2022 - 2026 (Expected)

- In-depth coursework in Data Structures, Algorithms, Machine Learning, and Big Data Analytics.
- Actively participating in coding challenges and hackathons to enhance practical problem-solving skills.

Intermediate Education

Sr Junior College | 2020 - 2022

- Focus on Mathematics, Physics, and Chemistry, providing a strong foundation for technical education.

High School Diploma

Suffah High School | Graduated in 2020

- Excelled in STEM subjects, fostering an early interest in computer science and technology.

Certifications

- Cisco Certified Python Programmer
- Cisco Certified Data Scientist

Technical Skills

- Programming Languages: Python, C
- Database Management: DBMS
- Tools & Technologies: Python libraries for data analysis (e.g., Pandas, NumPy), SQL

Projects & Experience

Currently seeking opportunities to engage in data science projects and internships to apply my skills in real-world scenarios.

Extracurricular Activities

- Sketching: Developing creativity through detailed sketches, enhancing observational and artistic skills.
- Movie Enthusiast: Exploring different genres to understand various storytelling techniques.
- Electronics Repair: Practical experience in troubleshooting and repairing electronic devices, honing problem-solving abilities.
